Welcome to Bobwhite

Sun light is visible through floor to ceiling windows that overlook the property from every room, including the foyer.

Beveled glass panels in the custom front door allow natural light to stream into the sunny open foyer. A wide entranceway extends a welcoming invitation into the living room on the left while the bedrooms are beyond a smaller, more discreet doorway on the right.

Surrounded by lush plantings and situated beneath an opening in a tall canopy of mature trees, this home is perfectly situated on the property and receives plenty of bright sun light.

An open and efficient contemporary plan highlights the enduring appeal of one-floor living.

Bay windows, corner windows and sliding doors allow light to flood the home and frame views of the woodland beyond. A contemporary fireplace surround has brass accents to reflect flickering firelight. Enjoying views on three sides, the eat-in dining room is a focal point of the main living areas. A wonderful four-season room off the kitchen overlooks its park-like setting and provides a more private retreat for relaxation or, with a built in corner desk area, for a quiet home office.

The two garages are accessed from the kitchen downstairs through a finished basement with laundry room and plenty of storage.

With two walls of windows and the other two covered in grass paper or mirrors, this master bedroom appears to be surrounded by natural beauty.

Tiled in marble throughout, the master bath has a walk in shower and spa tub accented with brass fixtures. Large mirrors on two sides make the space appear even larger and brighter. Windows in the bedroom overlook the backyard and spacious back deck. A fenced in area on the back corner of the property provides the perfect haven for the family pet.
