Welcome to Eleven O'Clock

A stunning grand foyer creates a remarkable first impression making it perfectly clear that your have entered a home of comfort and luxury.

A graceful curved stairway makes a dramatic descent into the soaring vaulted space. Above the double-door entry, two tiers of windows let natural light stream in during the day and a chandelier illuminates the evening.

Tucked away behind a privacy-guarding screen of stone walls and mature trees, the barrel vaulted portico and double front doors create a handsome focal point to the stately façade. Connected garages provide space for four cars and include a charming cupola-topped building with a walk up loft space for ample storage.

A living room that provides the perfect place to entertain guests or family after dinner, it is easy to imagine that, in the evening, the family will naturally congregate here.

The focal point of the comfortable open living room is a double-sided fireplace shared with the kitchen. The custom mantel extends to frame a flat screen television and incorporate it into the room elegantly. French doors open to a study on one side and an inviting sunroom on the other.

Tall paneled wainscoting and dentil crown molding surround the formal dining room in stately style. An inlay border sets off diagonally laid plank flooring forming a rug design in the flawless wood floor.

Painted in the yellow, ochre and white of Provence, this spacious sunny kitchen is wonderfully reminiscent of rustic Old World cookeries.

With an apron farmhouse sink and custom finished cabinets providing Provencal touches, this gourmet kitchen also incorporates some of the most recognized brands in modern appliances including Dacor, Kitchen Aid and Thermador. Flooded with sunlight from floor to ceiling windows, the bright, open kitchen adjoins many rooms and is the hub and heart of the house.

A wide doorway connects to a sunroom with built in storage, a perfect place to keep an eye on children at play. Another sunroom with inlay floor details and bead board wainscoting adjoins the living room. Both have French doors that open onto a spacious wrap-around deck overlooking the terraced back lawn.

A brook trickles along the far perimeter of the property. Its babbling sounds are heard faintly and a white steeple pierces the treetops in the distance adding to the bucolic nature of the homes scenery.

Dark wood inlay frames the marble hearth, one of many custom details that make this refined master suite unique.

Immediately upon rising or before retiring, enjoy the opportunity to step outside and gaze at the neighboring woods or up to the stars from a private balcony.

A spa tub by BainUltra is set in a handsome marble topped platform surround beneath a sunny front widow. A tumbled stone tile surround creates an inviting double shower with ample room for bench seating to relax and enjoy its steam shower capabilities.

With all your needs graciously provided for, whether by a separate w/c with bidet or walk-in closets with natural lighting, the master of the house can retreat to an oasis of comfort and luxury.

Four bright and sunny bedrooms with amazing views, spacious closets and en suite baths provide each family member with a suite of their very own.

Each of the private en suite bathrooms has bead board wainscoting and Old World fixtures and include a variety of finishes unique to it including the color of the granite topping the vanity and custom tiles.

A walk up attic stair leads to a huge unfinished open space where dormer windows allow sunlight to flood the room and illuminate the many possibilities this area holds for additional living space.

Outside, two stables, a lean-to and paddock provide for the comfort of the family pet, be it puppy or pony.
